

## SERVICES

ETP provides full conference services, including:

- Event Coordination & Administration
- Budget Planning & Financial Management
- Social Events
- Housing
- Abstract Books and Programs
- Marketing & Communications
- Event Web Hosting, Registrations & Abstract Management
- Conference APP Development
- Trade Show and Sponsorship Services

ETP is able to provide all your conference needs. For more details, please go to our website: [www.etpsymposium.org](http://www.etpsymposium.org)

Tribal Vision Performance - IMSC 2016 Opening Ceremony

## ETP SYMPOSIUM INC.

### SCIENTIFIC ADVISORY BOARD

Ruedi Aebersold, Institute of Molecular Systems Biology,  
ETH Europe  
Robert K. Boyd, Researcher Emeritus, National Research  
Council  
Catherine Costello, Boston University School of Medicine,  
Mass Spectrometry Resource  
Chris Dambrowitz, Associate Vice President, Research &  
Innovation, NAIT  
Norm Dovichi, University of Notre Dame  
Daniel Figeys, University of Ottawa (Committee Chair)  
Randy Johnston, Dept. of Biochemistry & Molecular  
Biology, University of Calgary  
Pierre Thibault, Université de Montréal

PO BOX 1166  
SHARON, ONTARIO L0G 1R0

# ETP

## SYMPOSIUM INC.

## BRINGING RESEARCHERS TOGETHER

ETP Symposium Inc. specializes in fostering collaborations through the organization of workshops and conferences.

# Bringing Researchers Together

## ABOUT ETP SYMPOSIUM INC.

### *its roots in research*

The ETP Symposium was initiated as part of a Genome Canada project sponsored by SCIEIX, Genome Alberta and Genome Prairie. Its major theme was to have world-renowned scientists present papers on their experiences with novel technologies that have, or will have a major influence on research in the life sciences. The popularity of the original two symposia led to the creation of a not-for-profit entity, ETP Symposium Inc., who now is responsible for organizing the symposium on a biennial basis. The theme remains the same: alerting scientists in the life sciences to advances in new technology that could have a significant impact on their research activities. The International Symposium on Enabling Technologies for Life Science (ETP) is held biennially since 2004.

The founders of ETP are Dr. Bill Davidson and Janette Champ.

Since its inception in 2004, ETP has been fortunate to have world-renowned scientists present their work at its meetings.

## HISTORIC CONFERENCES

Please go to [www.etpsymposium.org](http://www.etpsymposium.org) for a complete listing.

Lake Louise Tandem Mass Spectrometry Workshop  
Annually since 2015, Lake Louise, AB, Canada

21st International Mass Spectrometry Conference  
(IMSC 2016) August 20-26, Toronto

ETP, International Symposium on Enabling Technologies for Life Science, held biennially since 2004. (Held in Montreal, Toronto, Calgary, Banff, Vancouver, Boston, Toronto, Lake Louise, Ottawa.)

CCSB 2012, China-Canada Systems Biology Conference,  
June 25-28, Ottawa

Joint Conference, ICASS & CCACC, August 2011,  
Toronto

HUPO 2009 World Congress, September 2009, Toronto  
Canadian National Proteomics Network Annual  
Conferences and Workshops from 2008 to 2011

*"Nothing tends so much to the advancement of knowledge as the application of a new instrument"*

*- Sir Humphrey Davy*

## ETP'S SUCCESS STORIES

*ETP facilitated the commercial acceptance of Mass Cytometry by bringing two research groups together.*

*ETP was instrumental in the planning and formation of the organization now known as the Canadian National Proteomics Network.*

*Conference Coordination is one of the many activities in which ETP is engaged.*

## MISSION STATEMENT

As a non-profit corporation, we are committed to organizing and operating educational seminars and forums. ETP Symposium's mandate is to develop and provide interdisciplinary opportunities for scientists, engineers and technologists to discuss research and development of innovative tools that extend the capabilities of researchers.
