

# Enabling Technologies for Life Science (ETP 2017)

May 4-5, 2017, Demarais Building, University of Ottawa

**Symposium Chair**  
Lekha Sleno  
Chemistry Department, UQAM

## Invited Speakers

Jeffrey Agar  
Northeastern University

*Metabolic labeling approach for protein half-life determination*

Vladimir Baranov  
Fluidigm Canada Inc.

*Imaging of life & its practical challenges*

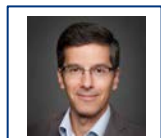

Kevin Bateman  
MERCK

*Quantitation of Therapeutic Proteins Using Mass Spectrometry*

Catherine E. Costello  
Boston University

*Divide and Conquer Strategies for Glycan Structural Determinations*

Daniel Figeys  
University of Ottawa

*Ex vivo screening of human gut microbiome by RapidAIM*

Richard Oleschuk  
Queen's University

*"Water-fearing" materials for making & manipulating droplets for MS analysis*

## 2-day PROGRAM

Invited Lectures  
Oral Presentations  
Poster Presentations  
Industry Exhibits

## REGISTRATION

(includes meals)

Early bird rates  
(before April 1):

General: \$250  
CSMS Member: \$200

Student: \$75  
CSMS Member \$40

Travel awards available
